

2013 – June, 4th & 5th
TOULOUSE - FRANCE

Symposium on Ecoinnovation in the Sudoe Region

Final presentations of the ecotech sudoe project

The Universitat Autònoma de Barcelona and all partners are glad to invite you to attend public presentations of the final results of the Ecotech Sudoe project (SOE2/P2/E377). Its goal was to further enrich the SUDOE region with advances in eco-innovative technologies and LCA.

Tuesday, June 4th 2013

Morning

9:30 to 12 **Regional day:** Eco innovations en région Midi Pyrénées (*in French*)

Afternoon

13 to 14:30 Creation and Implementation of an LCA Database for the Sudoe region

14:40 to 16:10 Comparison and implementation of urban metabolism methodologies: a study of Aveiro, Barcelona and Marseille

16:20 to 17:40 Agriculture and forest based products: LCA, bioenergy and green water use

Wednesday, June 5th 2013

Morning

9 to 10:30 Ecodesign of products in the agro-industrial sector

10:40 to 12:10 Improving the sustainability of buildings and the creation of a simulation software – a case study in Montpellier

Afternoon

13:15 to 14:45 Demonstration and simulation of industrial ecology approaches to improve resource management

Parallel Session 1- Water issues in industrial ecology and LCA in the Sudoe region

15 to 17 Parallel Session 2- **Open day:** Visite des laboratoires du Critt Catar, Centre d'Innovation et de Transfert de Technologie Agroressources (*in French*)

About the project:

The 8 partners from Spain, Portugal and France started the ECOTECH-SUDOE “International Network in Life Cycle Assessment and Ecodesign for Environmental Innovation of Technologies”, co-financed with FEDER European funds through the Interreg Sudoe IV program. With a lifespan of 33 months (January 2011 – June 2013) this project aims to improve competitiveness of Portugal, Spain and of the southern region of France through the development of environmental technologies. These technologies are not only sustainable and environmentally friendly, but they can also be considered on par in performance with other technologies.
